### Technical Translation

For each of your projects we assemble a highly specialized translation team around your company's needs. Our pool of translators with backgrounds in science and technology focus exclusively on the translation of technical, engineering and scientific documents where precision, accuracy and consistency are particularly important and notoriously hard to achieve.

We select only those translators who have expertise in your particular industry. This is especially critical in the translation of scientific and technical documents, which require a high level of precision.

### Industrial

Our long-standing strength in technical translation comes from years of working with equipment manufacturers of agricultural machinery, construction equipment, engines, forestry equipment, power equipment, mining machinery, packaging machinery and more.

Technical translation projects that we have been involved in include documents from the following industries:

- Automotive technical translation
- Avionics technical translation
- Building technology technical translation
- Civil engineering technical translation
- Digital Imaging technical translation
- Electrical engineering technical translation
- Energy conservation technical translation
- Hydraulics technical translation
- Marine engineering technical translation
- Mechanical engineering technical translation
- Medical (equipment/hardware) technical translation
- Mobile Radiotelephony (GSM) technical translation
- Nuclear Power technical translation
- Oil & Gas technical translation
- Optics technical translation
- Science and Physics technical translation
- Space technologies
- Telecommunications technical translation
- Television (broadcast technology) technical translation
- Water purification technical translation
- Military deployment programs; weapons systems

### Training/HR

Many training programs fail to produce desired results because they are presented in English, which, for much of the world, is a second language.

### ALPHA OMEGA TRANSLATIONS

Can translate your presentations, online learning and course materials into the language and dialect of your trainees. Localized training enhances learning and boosts performance, which increases your return on investment.

### Pharmaceuticals

Our pharmaceutical experience comes from working with leading healthcare companies. We use only translators that have the expertise and education required. And our project managers are well versed in protocols and the time-sensitive nature of pharmaceutical and biomedical communications.

So no matter whether you need to translate case report forms, clinical trials, journal articles or medical testing instructions, you can rely on ALPHA OMEGA TRANSLATIONS.

### Multilingual Desktop Publishing Services

Publishing Technical translation: Alpha Omega Translations delivers translated technical documentation designed for both web and print publishing: SGML, XML, XHTML, and PDF formats.

### ALPHA OMEGA TRANSLATIONS

Offers foreign language design and multilingual desktop publishing (DTP) services in a wide range of languages in InDesign®, Quark®, PageMaker®, Frame®, Illustrator® or any other application.

Our customers turn to us because of our proven commitment to providing high-quality, cost-effective services on-time, every time!

We speak your industry language. We are technical translation experts.
