Translation, Interpretation, and Desktop Services

Established in 1998 we are one of the nation's most competitive language services providers. We are a small, woman-owned business with a HubZone certification and with a large clientele of government and private sector organizations.

We specialize in highly technical translation, interpretation, and desktop publishing in all major languages. We provide quality service, with broad technical and literary translation experience, native ability in the target languages, and expert computer skills. With more than 35 years of experience, we specialize in the following areas: health, medical, development, legal, patents, engineering, energy, audio-visual, aerospace, chemical, economics, political, science, maritime, military, weaponry, computers, human resources, marketing, environment, business, financial, telecommunications, bio-technology, agriculture, etc.

The professionalism and expertise of our linguists.

Our customers turn to us because of our proven commitment to quality. Our vast pool of accredited and certified linguists, representing the best in the business, means we deliver reliable language services - on time.

We offer our clients translation, interpreting and desktop publishing services in the following languages:

- Afrikaans • Albanian • Amharic • Armenian • Azerbaijani

Experts in the technical translation for the global health industry

We have been providing services to PEPFAR partner organizations and other organizations involved in global health. The depth of our technical translations, website localization, and multilingual desktop publishing (DTP) experience speaks for itself. A few examples of recent projects include:

Translation of Training courses and technical manuals for health care providers to Address the Challenges of Caring for HIV-positive Children into French, Portuguese and Spanish for an USAID partner company.

Translation of Africa Country Office Capacity Assessment research reports for Human Resources management for medical programs in French and Portuguese for a large health care company.

Translation of Handbooks on the nutritional management of HIV/AIDS orphans in Africa in French, and Portuguese for a USAID partner organization.

Translation and typesetting of multiple Evaluation reports on Injection safety and health care waste management in Africa, South America, and Haiti, in French, Spanish and Portuguese for several public health organizations.

Translation and DTP of brochures, and technical documents into Spanish, French and Arabic for several large US-AID partner companies.

Translation of medical reports into Chinese, French, German, Japanese, Portuguese, and Spanish.

Translation of video recording of interviews of health care providers, and AIDS patients from Swahili, Amharic, Xhosa, Sesotho and other African dialects.

Translation and localization of website in French for a large foundation providing health care services for AIDS patients in Africa.

Our translators are experts in more than **100 languages**. Our customers turn to us because of our proven commitment to providing high-quality, cost-effective translations on time every time!
