What you get from Alpha Omega Translations

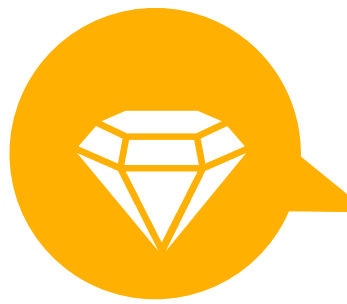

eLearning expertise: Experience and expert knowledge in eLearning localization.

Excellent personalized customer service: We adapt with you. We all know that if anything is certain at all, it is that nothing will ever remain the same. This is true for the moods of a toddler, the weather and localization programs. As your vendor we change with you. We come to the table with creative ideas. Solutions have to have a certain amount of elasticity: your needs can change as soon as the ink dries on that first proposal.

Professionalism: Expert Linguists, rigorously trained and vetted

Quality: Whether you need to translate a course module or localize a virtual learning environment, we deliver consistent, high quality content. Translation memory and glossary tools ensure consistency and lower costs across a wide range of eLearning formats and applications.

Speed and efficiency: Quality work, friendly service and fast turnaround

Agility: Complete information on options and choices depending on your needs.

Ease of Use: Technical subject matter expertise

Peace of Mind: Seamless integration of audio/video/animation content. As your solid partner we make your work easy.

Our team makes sure your requests are handled professionally and delivered at the highest standard.

We help clients identify and measure areas of improvement and deploy translation strategies to maximize learning comprehension.
